

IAMAI GRAN CANARIA

The hub for implementation & localization experts.

Based in Las Palmas, our Centre of Excellence provides highly trained specialists for international D365 projects. We bridge the gap between global implementations and complex localization needs, ensuring technical precision in data migration, AI integration, and project management.

Our hub operates as the official Centre of D365 Excellence, delivering technical precision and localized compliance for complex international projects.

01

D365 Implementation & Data

Specialized in full-scale D365 architecture, ensuring secure data migration and seamless system transitions.

02

Global Localization & Compliance

Deep expertise in adapting international systems to meet local legal, tax, and language requirements in any country.

03

Interfaces & AI Integration

Connecting complex ecosystems through advanced interfaces and future-proofing your business with AI-driven solutions.

04

Project & Operational Management

Senior PMO and operational management to guarantee the success of large-scale, multi-country deployments.

IamAI unites a collective of seasoned experts who have spearheaded some of the most complex D365 projects worldwide. From massive architecture migrations in North America to full-scale global rollouts across Europe, Turkiye, and Africa.

As a Centre of Excellence, we provide the seniority and technical depth that have defined the standard for excellence and compliance at major global organizations, delivering a level of authority that is unique in the market.

At iamAI, we don't just fill roles, we expand our collective. We are looking for the top 1% of D365 specialists who thrive on complexity and operate at the highest level of technical authority.

We are currently welcoming senior experts who have built a proven track record in Global Solution Architecture, Technical Data & Interface Engineering, Strategic Localisation & Compliance, or High-End Program & Project Management.

Based in the vibrant environment of Las Palmas, Gran Canaria, we offer a unique professional lifestyle. No mindless commuting, but high-impact global projects from an inspiring international hub.
